

Lesson Sequence

1. Compare the differences between things that are living, dead, and things which have never been alive

2. Identify and name a variety of plants and animals in a microhabitat

3. Design a suitable microhabitat where living things could survive

4. Find out what animals eat to survive in their habitat

5. Understand food chains

6. Understand the journey food makes from the farm to the supermarket

Food Chain

The grass is eaten by the rabbit.

The rabbit is eaten by the fox.

Microhabitats

in a flower

in a log

under a leaf

under a log

Dead or Alive

living

All living things breathe, eat, grow, move, reproduce and have senses.

dead

Something that was once a living thing.

non-living

Something that has never been alive.

Habitats

woodland

farmland

pond

coastal

desert

mountain

Food Chain

The grass is eaten by the rabbit.

The rabbit is eaten by the fox.

Draw your own food chain.

Write a meaning for living, dead and non-living.

living

dead

non-living

Name the microhabitats.

Name the habitats.

Rocket Words
